Siddharth Sharma from Jaipur. He has completed his engineering from RTU in Electronics and Communication. He started his career as a freelance software developer because of interests in the same. He considers himself a tech enthusiast and likes to attend meetups related to same. While his work focuses on creating websites, he has explored area of creating mobile and desktop applications. He could tell you about it, but THAT would NOT be a "length-limited" conversation!

SKILLS

[illegible]

WORK EXPERIENCE

May 2013 - June 2013
<http://theaid.com>

I joined a co-working place called PWC in Pune and started my journey as a freelance software developer and explored the business opportunities in the same

- Creating websites using HTML5 and CSS3
- Created android applications using phonegap
- Worked with PHP, nodejs and python in the server side

Full stack developer at Betaworks Technologies

June 2015 - December 2015
<http://ideaplunge.in>

Created a couple of web application using angular in the frontend and laravel/nodejs for the server side code

- Creating single page web apps with angular for the web part
- Creating API which were integrated with the web app and android/iPhone apps
- Attending client calls to understand the requirement and give updates about progress
- Build the backend in nodejs and php (laravel)

Front end developer at Helpchat/ Coroza Technologies

December 2015 - Current
<http://teloschat.in>

Front end development using angularjs and some part in react-redux

- Writing code angularjs as per the requirement
- Integrating the APIs with the front end web application
- Created the admin dashboard for the same in react-redux and materialUI
- Creating some UI components as required

Software development at Open source contributions

- Current

- Among the top three contributors to repository with more than 6.5 stars
- Contributed towards making a good and reliable CMS based on reactjs, graphql and nodejs.
- Created and supported a couple of angular1 repository such as html-to-pdf, ui-select and angular-datetimepicker
- Contributions to more projects based on angular2 and other projects that I found interesting.

VOLUNTEER

volunteer at TISA

January 2010 - January 2013

Helped in creating and managing a group of people of stutter as he himself has a mild speech difficulty.
